Who are Mentors?
Mentors are seasoned foster parents who know the “ins and outs” of the system. They are uniquely effective because they understand how difficult it is and can empathize and share their own foster care experiences. Once approved as a mentor, mentors will provide relevant information, insightful coaching, and genuine encouragement to their assigned foster parent mentees.

Mentors can provide information on:
- Health Care
- Education
- Permanency
- Court Processes
- Family visits
- Shared Parenting
- And More!

In addition to the joy and satisfaction that is experienced by Foster Parents, there may also be a fair amount of anxiety, confusion, and frustration, especially for new Foster Parents. Having a helpful guide through the process would promote an initial experience that is both satisfying and successful.

Foster Parent Mentors can:
- Be available to answer questions during critical times
- Offer additional support and knowledge to new Foster Parents
- Guide Foster Parents successfully through the system of care
